Kaleidoscope Rug

The Kaleidoscope Rug is a complex array of vibrant colours that are layered upon one another to create a modern and spirited piece of floor art. Inspired by the exciting uncertainty of looking through a kaleidoscope, this piece has been specifically crafted to create a vivid intensity through its exploration of colour and light. The playful interaction of colour has allowed for a vibrant rug that can liven a quiet space or complement a colourful setting. By weaving the variable pile heights and hand carving the rug, the texture and effect of the Kaleidoscope rug injects a splash of vibrancy into any room.

Magic Stepping Stones Runner

Highly interactive and visually striking, the design celebrates the power of colour in transforming homes.

The Magic Stepping Stones irregular shape and unusual composition introduced through varying pile heights and intricate hand carving break traditional design boundaries. This is an adventurous and transformational design that injects vibrancy into any hallway, creating a link between indoor and outdoor space whilst maintaining a contemporary and modern feel. 20 dyed wool colours make the floor quiver and vibrate.
