This September, for **London Design Festival** (14th-22nd September), luxury European design brand **Sé** will transform its gallery to showcase - for the first time in the UK - 'Below The Heavens' Part II designed by Ini Archibong. Alongside this debut, part of the Sé gallery will be transformed with an installation from architectural embroidery atelier **Studio MTX** - part of Chanel's 'Maison d'art'.

Throughout design week, and including **The Brompton Design District** late night opening, Sé invites visitors to discover Part II's new earthly and monumental furniture and lighting pieces. On display for the first time since the Collection's launch during Milan Design Week, the highly anticipated sequel references, like its precursor, the eternal interplay between heaven and earth, this time focusing on a terrestrial aesthetic. The sequel introduces monolithic pieces which are statuesque and mature. The ever-expanding repertoire of Sé's luxury finishes and materials is demonstrated in Part II's exploration of new wood finishes and bespoke crystal colours.

The LDF presentation sees Sé continue its close partnership with prestigious design ateliers **Studio MTX** and **La Manufacture Cogolin**. Evolving the window panel concept revealed during Milan Design Week, Sé reprises its collaboration with Paris-based Studio MTX to create an unmissable and

immersive moment. The embroidered panels, exemplary of MTX's artistry, will be presented in three different design and finishes, all of which are exclusively available through Sé in the UK. Visitors will also experience new rugs from La Manufacture Cogolin's latest collection by Elliott Barnes which will be exhibited together with a curated selection of artworks from artists such as **Studio Earle** and **Kiko Lopez**.

**NOTES TO EDITORS:**

**About Sé**

When Sé began in 2007, director and founder Pavlo Schtakleff had a goal – to reclaim the glamour and quality of 20th century furniture and to become a dynamic and innovative presence in the world of contemporary luxury design. Sé's vision was to invite some of the world's best design talent to produce collections, akin to an art gallery or a couture house, the ultimate object being to build a catalogue of highly-crafted and beautifully-finished objects, made of the finest, noble materials, by the best craftspeople in Europe. With timeless forms, a curvaceous aesthetic and a spirit of play, Sé pieces are now feted for their characterful, sculptural profiles, and their ability to captivate the senses.

Since its beginnings, this European design brand has stayed true to its founding ethos and to date, Sé has created four highly-acclaimed editions from French designer Damien Langlois-Meurinne, Spanish-born Jaime Hayon, Slovenia-based Nika Zupanc and the fourth collection from Switzerland-based Nigerian-American designer Ini Archibong.

Under Sé's stewardship, each designer brings their own sensibility and character, while harnessing a personality, polish and sheer sense of finish that is undeniably Sé. All Sé pieces are the products of the most exacting collaborations. They are sensual, tactile and cerebral, inviting the gaze and the touch as well as engaging the mind.

Headquartered in London and fabricated across Europe to the highest technical standards, Sé aims to make furniture that not only delights, but that will also become tomorrow's heirlooms.

founding idea was to take embroidery from clothes to the space, thus freeing embroidery from its traditional medium and rethinking the techniques so as to adapt it to the scale on interior design.
