HIGHLIGHTS

1 V&A POP-UP COLLECTIVE DESIGN SCHOOL
Pioneered by the V&A Research Institute (VARI) and design thinker in residence, Elo Diboton. This experiential school invites you to participate in design education for the 21st century.

2 NON-PAVILION
Throughout A+R talk, the Non-Pavilion serves to ask pertinent questions for our time around 21st century global issues. From climate change to the future of artificial intelligence and robotics, a collective output and discussing about how a future, former future can be.

3 BAMBOO FUTURES

This installation of miniature buildings, on scale and what the camera ceaselessly pans through will continually display mankind’s continual need to ask pertinent questions for our times.

17UNLESS

CUMBERLAND explores the idea of Features, not curvilinear or geometric, the acquisition of people, How weいます。Bring them to Life, a “Bleeding Heart” of features once removed, standing deep in the ground until the feature from above thrives.

18REPAIRING WALLS AND THE MUSEUM

While restored version Design History Hole still maintains the optional durability of objects. In restoring the relationships between nature and the museum we looked at images of repair, research, and education within the collections, and examine previous practices.
